THE PRACTICAL NURSERYMAN.

A TRADE JOURNAL

Vol. 5.

HUNTSVILLE, ALA., JULY, 1897.

No. 7

To Nurserymen, Florists and Seedsmen.

NOVELTIES FOR 1897-'98.

The new Hardy Yellow Climbing Rose

YELLOW RAMBLER, (Aglaia)

This being the only yellow climbing rose yet known that has any hardiness whatever. In our nurseries the past winter unprotected yearling plants of the Yellow Rambler withstood a temperature of *ten degrees below zero* without injury. It is a very strong and vigorous grower, making shoots 8 to 10 ft. high in a season, after becoming well established. It blooms in splendid large clusters after the manner of Crimson Rambler, and has frequently produced as many as 120 to 150 blossoms in a truss.

Lord Penzance's Hybrid Sweet Briars.

These are crosses between the common, old-fashioned sweet briar and various garden roses, all of them retaining the delightful fragrance of flower, foliage and wood which characterized the common briar. The flowers range in color from very dark crimson to white, with all intermediate shades. The plants are wonderfully vigorous and extremely hardy, so that they are especially an acquisition to those places where the climate is too severe for ordinary roses.

THE BIG BLACK RASPBERRY,**CUMBERLAND (Tradé Mark)****The Business Black-Cap.**

This is by far the largest black raspberry yet introduced, and, as the fruit is very firm and stands long shipping, it is destined to be the market variety among black-caps. The berries are simply immense and of such handsome appearance that fruit grown by the originator was sold at 10c per quart when other kinds were selling at 6c. We control the entire stock of this berry, but offer to arrange with a limited number of retailers to sell it under the trade mark name, "Cumberland," under certain restrictions as to price, propagation, etc.

Lithograph Plates and Descriptive Circulars

of these novelties will be supplied to our customers, the circulars at their actual cost and enough plates for artists' book, free of charge. Write us at once.

NUTS FOR PROFIT

Contains 158 pages and 60 illustrations carefully engraved from nature, giving correct representations of the numerous varieties of Nuts, their size, shape and general appearance, and showing habits of growth of some of them.

It also devotes considerable space to PROPAGATION, GERMINATION, BUDDING and GRAFTING—CULTIVATION, HARVESTING and MARKETING. Also a number of RECIPES for preparing and serving the Nuts for the table.

It also gives the experience of eminent authorities in different sections of the United States. Any one interested in NUTS or NUT CULTURE will find much interesting and valuable information in this book. Price, prepaid, \$1.00.

Sphagnum Moss.

I am absolutely the only dealer in this vicinity who owns the swamp from which the moss is taken, and I personally superintend getting out the moss for my customers. I can therefore guarantee my moss to be of the very best quality and the bales to be of the largest size. Moss can be supplied in any quantity desired either in bulk or in bales. Be sure to get my prices before placing your orders elsewhere.

"EVERYTHING FOR THE OFFICE."**REVISED****NURSERYMEN'S STOCK BOOK.**

We take pleasure in calling your attention to the fifth edition of our Nurserymen's Stock Book, which we have revised with great care. All who have used it pronounce it the most complete thing of the kind yet published. It embraces all the latest and most popular varieties of stock known to horticulturists. Size, 15x20 inches, 56 pages, printed on heavy ledger paper, ruled in the most approved style, with heavy tag board cover. Price, \$1.50 each, \$14.00 per dozen. We should be pleased to have you give it a trial.

We make a specialty of printed envelopes in large quantities. We are headquarters for everything in the line of office supplies.

THE PRACTICAL NURSERYMAN.

A TRADE JOURNAL.

Vol. 5.

HUNTSVILLE, ALA., JULY, 1897.

No. 7

THE PRACTICAL NURSERYMAN.

PUBLICATION OFFICE:

HUNTSVILLE,

ALABAMA.

W. F. HEIKES, Editor and Manager.

Issued Monthly. Sent only to those in the trade. We do not solicit subscriptions. If you value THE PRACTICAL NURSERYMAN, please accept it with our compliments. Our circulation covers a list of 2,200 selected names of customers and correspondents, made up through many years of active wholesale business. Every name represents a buyer of nursery stock, and this list contains only the names of those who buy at wholesale.

Advertisements 10c. a line agate; \$20.00 a page; one-half page \$10.00; one-fourth page \$5.00. Advertisements must be handed in one week before the day of publication. Advertisements for less than \$5.00 will not be accepted. Discounts: 3 times 5 per cent.; 6 times 10 per cent.; 12 times 25 per cent.

The circulation of this Journal will be confined strictly to Nurserymen, Florists and Seedsmen, and only invited advertisements of articles pertaining specially to these trades will be inserted.

The American Association of Nurserymen.

The report of the proceedings of the twenty-second annual convention of the American Association of Nurserymen, held in St. Louis June 9th and 10th, will be issued at once.

The attendance was large, and the meeting was generally voted one of the most interesting and important ever held.

Included in the proceedings will be found the report of the tariff committee and extended discussion on the proposed San Jose scale legislation. Several of the leading nurserymen of the country gave a great deal of time to this question, and the result of their deliberation is a bill which the association will try to have passed. This proposed bill is given with all discussion.

If you are not already a member of this great association it is a good time to begin. Send your name, address, and two (\$2) dollars, membership fee, and you will be included in the roll and receive a copy of the transactions.

Address Geo. C. Seager, Secretary, Rochester, N. Y.

Nature-Study for Public Schools.

Nature-study, or seeing familiar things in a new light, is a valuable factor in education. How many people can explain, so that a child can understand, why water puts out fire; why some young squash plants bring their shells out of the ground on their backs and others do not; or show the difference between a leaf-bud and a fruit-bud of the apple; or tell from whence all the house flies come? The world is full of some common things, about which people do not inquire. Yet such subjects can be made very interesting to children and they can be taken up in the schools, not as an added recitation, but as a rest exercise once or twice each week to relieve the monotony of the school-room and later be made the theme for a language exercise. Here are two important faculties that may be brought into exercise—accurate observation and the power of expressing definitely what is seen.

The College of Agriculture of Cornell University has, under the Nixon or Agricultural Extension bill, undertaken to assist, free of expense, all teachers who wish to introduce this work into their schools. All parents and teachers interested in this work are asked to send their address for more detailed information to Chief Clerk, College of Agriculture, Ithaca, N. Y.—American Agriculturist.

It is a well-known fact that it is the seeds of fruit which exhaust the tree, hence here is one great gain in thinning, since a large apple or a large peach has no more seeds than a small one, and if half the fruit has been removed, half the strain in producing seed has been removed. Fruit should be removed from the lower branches early in the season, in which case the foliage of the lower branches will give the fruit of the upper branches a new supply.

There are many soils said to be worn out and exhausted which are only lacking in vegetable mould. The benefits of having the soil in a good mechanical condition are seldom appreciated. The great remedy is to apply more plant food, while, in many cases, especially on clay soils, humus is the chief thing needed.

SAN JOSE SCALE.

We have had our Nurseries examined for San Jose scale by the Alabama State Entomologist, and we have his certificate pronouncing our Nurseries clear. In our issue for August we expect to print a photo-engraving of his certificate.

We do not print quotations this month, as we intend to give some special bargains to those who will write us, stating their wants in the line of stock we grow. Write us before buying elsewhere. We intend to meet all competition and do a little better for our customers than others will. We believe prices will be higher as the season advances.

THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

For 100 rates add 1 cent each; for 10 rates add 2½ cents each to the 1000 rates.

THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

PEACH TREES--On Peach, Leading Varieties

Our Peach Trees are budded on seedlings grown from Tennessee and Alabama Pits. They are free from Aphid or Root-knots, and have fewer borers than those from most nurseries.

We can supply beautiful medium and small-sized peach trees this year. The lands upon which our peach trees are grown this year produces a light, well-matured tree, with fine roots. These trees will answer well the purpose of "June Buds," and are very much better to transplant, as they will be well matured to the terminal bud, while June Buds are often tender at the tips. The little trees we offer should not be confounded with the little culls left after the larger trees have been dug and offered so cheaply by other nurseries. Our peach trees have been grown with especial reference to the Southern trade, where small sizes are mostly wanted. The Yellows and Rosette are unknown in this locality, and we have been careful not to bring in any buds from affected localities.

Grown from cuttings. Price of boxes or bales to be added. Delivered at depot at Biloxi. On orders sent in by Northern customers for Spring delivery, we will pay freight to St. Louis, and hold in cold storage there until wanted. The No. 1 plants will have three or more branches and will be cut back to 24 to 30 inches. The roots are very fine.

We make a grade of Roses called No. 1½. This grade will be made up of plants just under No. 1, such as do not have the required number of branches or slightly under weight and height, and makes a very nice grade for mailing. Price 30 per cent. off the price of No. 1.

No. 2 PLANTS OF ABOVE VARIETIES FOR TRANSPLANTING AT ONE-HALF THE PRICE OF No. 1. The tops of No. 2 plants will be cut back to 2 or 3 inches, as they are only intended for transplanting.

STANDARD PEARS--One Year Buds.

Kieffer,	per 1000, 5 to 6 feet,	\$50;	4 to 5 feet,	\$40;	3 to 4 feet,	\$35
Ea Harvest,	per 1000,	"	"	"	"	65
Garber,	per 1000,	"	"	"	"	35
Cincinnati,	per 100,	"	"	"	"	15

STANDARD PEARS--One Year Cuttings.

LeConte, Garber, per 1000, 5 to 6 feet, \$50; 4 to 5 feet, \$40; 3 to 4 feet, \$35

PLUMS--One Year, on Plum.

Satsuma, Robinson, Pottawattamie, per 1000, 5 to 6 feet, \$65; 4 to 5 feet, \$50; 3 to 4 feet, \$30.

MULBERRIES--Very Fine.

New American and Downing, two years, per 1000, ¾ to 1 inch, \$100; ½ to ¾, \$80; 9-16 to 5-8, \$75. Hicks', two years, same price.

FIGS.

Assorted, one year, 4 to 5 feet, \$8.50 per 100; 3 to 4 feet, \$5.00 per 100; 2 to 3 feet, \$7.00 per 100.

Terms and conditions governing above quotations are the same as those given by the Huntsville Wholesale Nurseries.

THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

Terms and Conditions Governing Quotations in the Price List of the Huntsville Wholesale Nurseries.

RATES.—As we send this list to the trade only, we make the difference in prices between the 10, 100 and 1000 rates very slight—simply sufficient, as a rule, to cover the difference in the expense of handling in the smaller numbers. We uniformly tie in bunches of 10, when consistent with the order, and we suggest to our customers to make their orders for varieties in multiples of 10 as far as practicable. Orders for 50 and not over 300 trees, if for not less than 10 of a variety, will be charged at the rate per hundred. Orders requiring 300 trees or more, and not less than 10 of a variety, will be filed at the lowest quoted prices. Orders for less than 10 trees of one variety, will be charged at the rate per ten.

SEASON.—Our packing and shipping season begins by the 20th of September, and continues until about the first of March.

We have great advantages to offer here in early shipments for the North in Spring. We do not accept orders for trees we do not grow, as we never buy trees to sell again. You can depend upon us for fresh dug trees. Each order is taken up separately, and not until it is wanted for shipment.

SHIPPING DIRECTIONS.—We respectfully beg our patrons to furnish us with explicit *directions as to shipping*, and the mode of conveyance by which they desire trees forwarded. When no particular directions are given, we forward according to the best of our judgment. *But in no case do we assume any responsibility as to safe delivery and condition of Trees and Plants after a proper shipment by us.*

RELEASE.—When prepayment of freight is not required, we will Release and Guarantee, and take forwarder's receipt and mail to consignee. It is left to the option of the shipper of trees over some railroads, whether he will release them or not under the clause "Value less than \$1.00 per 100 lbs." If released under this clause, the freight is less on roads governed by this classification, and we will assume it to be proper to make this release, without reference to the value of the trees, unless instructed to the contrary. This clause does not apply upon roads under some of the district classifications, and because of this confusion we will not be held responsible for any oversight to release, unless instructed by our customers. Claims for delay or loss must be made to the forwarders.

PACKAGES.—The cost of package must be added to the prices quoted in this list, as follows: Boxes 30 inches square, from 7½ to 9 feet long, as the trees may require, each \$2.50; boxes 24 inches, \$2.00; boxes 18 inches, \$1.50; bales from 25c. to 75c. each.

PACKING.—Goods will be packed in moss, and especial care taken to insure their arrival in the best condition.

ASSORTMENTS.—We do not require customers to take an assortment they do not wish, but will sell one variety alone if desired. If any substitution can be allowed, either in grade or variety, it should be so stated when making the order. As a rule we do not substitute without permission.

CAUTION.—We accept all orders upon the condition that they shall be void, should any injury befall the trees from frost, hail, storm, fire, or other causes over which we have no control.

TERMS.—Cash. When desired, we will allow 30 to 60 days from date of shipment, to responsible.

prompt-paying customers. Parties with whom we have had no business transactions, will save time by sending reference, with order. We wish it expressly understood that payment is expected from the first collections made, and the time named is only intended as so many days of grace in which to make returns. To northern customers, who wish to lay in stock for Spring trade, we will ship late in Fall or early in Spring, and allow time for payment till May 15th. If shipment is required in the Fall for Spring use, a note is to be given upon receipt of the trees. We do not allow any discount for cash, but we make our prices low to command cash, or prompt returns. In orders when the time is not mentioned, 30 days is to be understood. Interest at the rate of 8 per cent per annum must be paid on over due accounts. Should prices be changed, either higher or lower, during the season, the prices ruling at the time the order is made, are expected to stand.

FORMS OF PAYMENT.—All bills are payable at the office of the seller, and remittances should be made by drafts on New York, Chicago or St Louis, or by money orders on some Express Company, or by postal orders. We will, however, accept checks from those of our customers who may be located at places having no banking, express or postal facilities, provided they make them in every case payable "with exchange", or add ¼ of one cent, to the amount of the bill for the cost of collection.

GRADES.—We grade very carefully, in some cases by caliper, in others by height. When graded by both caliper and height, the caliper must govern, as the height then named is only to be considered approximately. When graded by height or caliper, we include the lower number and exclude the higher. Instance: in a grade of 4 to 5 feet trees, the 4 feet trees are included, but not the 5 feet trees. If 5 feet trees are wanted, the 5 to 6 feet grade must be ordered.

GUARANTEE OF GENUINENESS.—While we exercise the greatest diligence and care to have all our Trees, etc., true to label, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to, between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees, etc., that shall prove untrue.

ACCEPTANCE.—Notice should be sent us by telegraph, at our expense, if there is any cause of complaint, or should the trees be refused, stating reasons. (Claims for deduction, from whatever cause, will receive consideration only when made promptly upon the receipt of the trees. If trees show any signs of shrivelling upon arrival, they can usually be restored by being thoroughly watered and buried entirely under the ground for two or three days. Should there be any frost in the trees upon arrival, they should not be removed from the box until the frost is all out. The box should be placed in the cellar or protected in some other way. The presence of frost in the boxes is not to be considered an evidence of bad condition, as we pack to secure the trees against damage, if the frost is allowed to come out in the natural way. Goods will be considered accepted if removed from the boxes in which they are packed, without notice of complaint to us and without our orders for their disposition.

LANDS FOR SALE.

A Rare Opportunity to Acquire a Home in the South.

We offer the following lands at HUNTSVILLE, ALA., and BILOXI, MISS., for one-third cash, balance in one, two and three years, with six per cent. interest, and will give purchasers contracts to grow nursery stock sufficient to pay the deferred payments:

One tract of 240 acres adjoining the Nurseries on the East. A small stream of never-failing pure water runs through this place. Can be divided into 80-acre tracts. Price \$10.00 per acre.

One tract of 40 acres adjoining the Nurseries on the South, watered by a never-failing stream. Price \$15.00 per acre.

HOMES ON THE GULF COAST.

One tract of 50 acres adjoining the Biloxi Nurseries, with good dwelling house and outbuildings. Price \$800.

Two tracts of 50 acres each adjoining the Biloxi Nurseries, unimproved. Price per acre \$10.00.

WESTERN LAND.

One tract of 160 acres, unimproved, in Lincoln County, Neb. Price \$800.

One tract of 40 acres, unimproved, in St. Clair County, Mo. Price \$125.

One tract of 20 acres near Grand Junction, Colorado, with water rights, \$600.

One tract of 40 acres near Fruita, Colo., unimproved, \$400.
